SMART CARAVAN SYSTEMS

## Our Products

- Caravan tracking system
- Caravan security system
- Smart caravan systems

Our products, which we offer for sale and whose main purposes are to ensure the safety of caravans and caravan owners, are constantly updated in line with technological developments and the needs of users.

Up-to-date information received via sensors is transferred to users' phone screens simultaneously.

Along with the sirens warning in the event of danger, the records regarding the danger reach the phone as an informative message, the details of the past activity can be reported, and in this way, you can monitor all the information about your caravan remotely.
